

Hong Kong Maritime Week

Organised by the Hong Kong Maritime and Port Board and inaugurated in 2016, the Hong Kong Maritime Week is an annual signature event of Hong Kong's maritime and port industry.

Through an intensive week of maritime activities, we hope to unite and showcase the industry as a strong cluster, raise the community's awareness of the economic contributions of the industry, and promote Hong Kong as a preferred base for operating maritime business.

International and local industry luminaries and practitioners as well as students, youths and the community are welcome to participate in a myriad of diversified and fun-filled maritime activities.
